PROFESSIONAL SUMMARY

Junior Backend Developer with experience in Node.js, Express.js, and MongoDB, building RESTful APIs, designing database schemas, and implementing secure authentication and authorization. Passionate about writing clean, maintainable code and solving technical challenges while contributing effectively to collaborative development environments.

WORK EXPERIENCE

IntelliSeven Technology Solutions Inc.

June 2025 - Present

Junior Backend Developer

Eastwood, Quezon City

- Developed RESTful APIs using Node.js, Express.js, and MongoDB, reducing API response time by 50%.
- Implemented backend features using server-side technologies, reducing manual processes and improving application functionality.
- Managed application data using MongoDB, ensuring accurate data storage and supporting scalable backend operations.
- Debugged backend applications using Node.js and Express.js, resolving issues and increasing system reliability.
- Maintain and enhance existing backend services by resolving bugs and implementing new functionality.

Self-Employed

August 2025 - October 2025

Freelance Backend Developer

Eastwood, Quezon City

- Designed and implemented RESTful APIs to support frontend functionality and client requirements.
- Implemented secure authentication and authorization mechanisms, protecting user accounts and restricting access to authorized users.
- Collaborated with frontend developers to define API contracts and resolve integration issues, ensuring smooth end-to-end functionality.
- Maintained a clean, modular codebase using Git and established coding best practices, supporting efficient development and future maintenance.

PROJECTS

Agriculture E-Commerce API
